

PBX Replacement

When an organization looks to change their existing PBX, it is normally a decision that is driven by a few key considerations:

OBSOLESCENCE OF AN ON PREMISE SOLUTION

Current solution is now old and as a result the cost of maintenance and support is expensive and it is difficult to make any changes.

FEATURE/CAPABILITY REQUIREMENTS

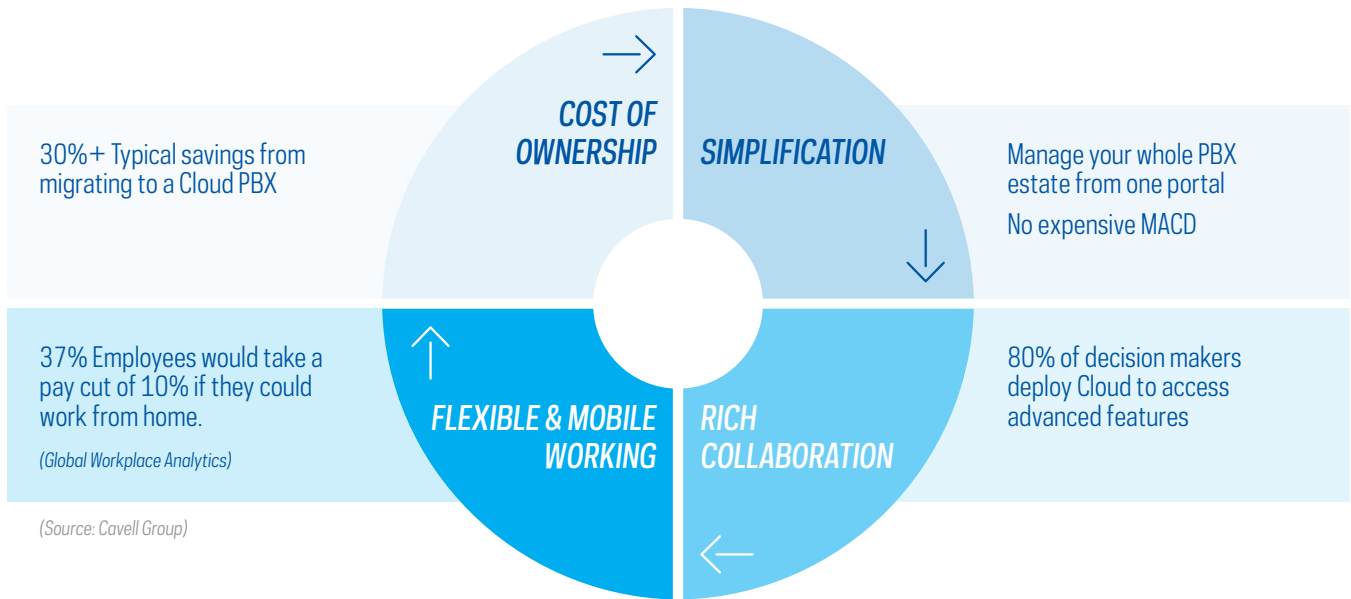

As technology has moved on you are aware of new features that your business now requires, that your previous system may not have offered. The key features are often Mobility/Flexible Working, Collaboration, Instant Messaging, Disaster Recovery, etc.

"UNSTOPPABLE MARCH TO THE CLOUD"

The key question is why are so many businesses considering the cloud as their main option for a PBX replacement solution?

→ **We see the following 4 main benefits:**

COST OF OWNERSHIP

You are realizing the cost of operating an on premise solution compared with a cloud solution are prohibitive. So there are often direct cost advantages from having a monthly per user model.

FLEXIBLE AND MOBILE WORKING

As workforces and businesses change, there is an increasing requirement to work flexibly from different locations, rather than having a set cubicle in an office. With Cable ONE Business Hosted Voice you can use this solution from any location.

SIMPLIFICATION

The Hosted Voice solution focuses on making the management of your services and your user experience as simple as possible, putting you the administrator and users back into control with simple portals and applications enabling you to add/remove users or features in seconds.

RICH COLLABORATION

The requirements for your employees to collaborate both internally and externally with your customers and partners is increasing. Look for a rich set of collaboration tools that include: group chat, desktop sharing, and audio/video conferencing.

A solution being delivered from the cloud will enable you to grow or reduce the number of users simply, and give you the flexibility to offer new working practices such as home or mobile working in the future.

WHY CHOOSE CABLE ONE BUSINESS?
